Some of the video clips from the BBC do not work because you need a BBCTV License & UK Address to see them. Also note these are for the UK Agreed syllabus' that are for State schools and so are not necessarily from a Catholic perspective. They use the Phenomenological approach to teaching Religious Studies as opposed to the Education-in-Faith we use in Religious Education in Aotearoa New Zealand in our Catholic schools. However, there are still a number that you might find useful over the 5 pages.

There is also some material like the Teacher CPD - London Hub RE Conference 2016 in this first section that could provide yourself with thinking about what is happening in our subject area from a Interfaith perspective.
